

# BOBO (HOHO) GAZETTE

It's the final edition for 2023. It was a good year filled with new and exciting treatment therapies being added to Mind And Body Infusion Therapies. We have a weight loss program and two new body contouring machines that help reduce wrinkles, fat and scars. They are called Venus Bliss and Venus Viva. Amazing results!

I made a lot of new friends this year and that makes me very happy. I hope everyone had a healthy happy year. Don't forget if you have any comments (like how cute I am) or suggestions about the newsletter, please send us an e-mail to [admin@mbitohio.com](mailto:admin@mbitohio.com).

PEACE, LOVE AND HEALTH TO ALL! BOBO

## New at MBIT: INTRODUCING!!

  
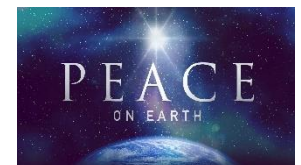

VENUS BLISS

  
VENUS VIVA

Venus Bliss is a device intended for non-invasive lipolysis of the abdomen, flanks, back and thighs to deliver energy and heat to the adipose tissue layer resulting in reduction of fat in the treated areas. It is also equipped to tighten skin, reduce circumference, and reduce cellulite. Venus Bliss provides patients with a comprehensive treatment solution, resulting in a smoother more contoured-looking body.

The ideal candidate may also have skin that is starting to lose elasticity and/or shows early signs of laxity and dimpling.

Venus Viva is a non-surgical system for skin resurfacing and wrinkle reduction. The Venus applicator has small pins that safely deliver energy through the skin's surface. This creates tiny wounds, which the body then works to heal naturally. This process is what repairs signs of damage seen on the surface of the skin. It also uses heat to naturally boost collagen production, which is something that slows down with age. This helps to restore a younger-looking appearance.

# VENUS BLISS
